EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

IN THE CLAIMS:

In **claim 19**, the second to last line, change the words "said fifth collimating means" to "said input beam collimating means."

In **claim 21**, line 4, change the words "said fifth collimating means" to "said input beam collimating means."

In **claim 47**, line 2, change the words "a fifth collimating means" to "an input beam collimating means."

In **claim 49**, line 3, change the words "fifth collimating means" to "input beam collimating means."

Election/Restrictions

Linking claims 1 and 15 are allowed. Since the restriction requirement between inventions indicated as patentably distinct species, as set forth in the Office action mailed on April 25, 2003, was conditioned on the nonallowance of the linking claim(s), **the restriction requirement as to the linked inventions is hereby withdrawn**. Claims 2-8, 10-14, 16-21, 23-26, and 37-51, previously withdrawn from consideration as a result of the restriction requirement, are hereby rejoined and fully examined for patentability under 37 CFR 1.104. In view of the withdrawal of the restriction requirement as to the linked inventions, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Reasons for Allowance

Since previously withdrawn claims 2-8, 10-14, 16-21, 23-26, and 37-51 include all the limitations of one or more of generic claims 1 and 15, applicant's arguments filed on September 22, 2003 with regards to claims 1 and 15 are also deemed persuasive with regards to previously withdrawn claims 2-8, 10-14, 16-21, 23-26, and 37-51.
